

Introducing the Clubware Facility Management Software Cloud Solution

Clubware 2.0 is now available as a cloud-based solution. This means that Clubware 2.0 will be hosted externally, offering your health club a series of benefits including:

- **Location & Device Independence:**

You can conveniently access Clubware from anywhere, using any device including a tablet or smart phone.

- **Integration:**

For facilities with multiple sites, data is consolidated in real time allowing you to provide a consistent service across all branches.

- **Data Security:**

Maintain the security and integrity of your business data as this is stored separately from your internal/personal data.

- **Business Continuity & Disaster Recovery:**

Should any unforeseen events occur, you can significantly reduce the risk of data loss with all of your business data safely stored in the cloud.

- **Flexibility:**

The Clubware 2.0 cloud structure is simple, with the ability to scale up or down depending on your requirements.

- **Established**

Over 500 health clubs across Australasia have chosen Clubware 2.0, featuring low entry costs, free introductory training and ongoing technical support, free upgrades and full compatibility with the country's leading billing companies.

The Clubware 2.0 cloud solution combines the benefits of a mature application with the advantages of the latest cloud technology.
