Features and Benefits of the Product

The FFA Payscale Direct Debit billing solution allows you to make recurring payments from your Account to a single merchant – for example a club or organisation you have membership to. The Product has many benefits, the key benefits are summarised below. Please note that some benefits may be subject to contractual obligations with your merchant.

- Simple and hassle free: By setting up a direct debit or credit card debit with FFA Payscale at the same time you take up your membership, you no longer have to do any running around to your financial institution to arrange recurring payments from your account. We are responsible for initiating the debit for the correct amount on the correct day and handling it efficiently within our system. As these processes are electronic they are not prone to human error.
- Align payments to your income stream: If you get paid on a Thursday, you can choose to nominate your recurring payment to be debited on a Thursday! You can set your payment frequency to weekly, fortnightly, and monthly or on an ad hoc basis. This means that FFA Payscale initiates the payment when there is most likely to be money in your Account.
- Choice of term or flexible arrangements: You can choose to have a term contract that expires automatically once you have made all the required payments or a “flexi” contract that carries on after any minimum term until such time as you request us to stop it. This option is not available in South Australia.
- Reversal follow-up: We follow up any payment reversals with an SMS the very next day advising you of a reversal. In this way you are alerted to the state of your payment and can arrange for clear funds to be available in your Account to avoid expensive bank fees.
- Ability to pay off early: Should you request, we can collect more than the required instalment, so you can pay off your account or membership earlier.
- Ability to arrange catch-ups: From time to time you may fall behind in your payments – if this happens we will arrange a ‘catch-up’ payment if they are unable to bring the amount up to date immediately. The catch-up payment amount must be realistic and you must comply with the arrangement to bring the account up to date again as soon as possible.
- Security of data: We have in place security systems of a very high standard to ensure that your personal information is secure from unauthorised access.
